On only a few stocks was the decline enough to call for notice, and the narrowness of the day's movement effectually frustrated some trading operations. The action of several stocks which have recently been market factors revived the impression that they were oversold, as they rallied easily when the bears found out they were not bringing out any long nt they were not bringing out any long

Attempts to reach stop-loss orders did not meet with success, which caused the sarly abandonment of the movement. not meet with success, which caused the early abandonment of the movement. Recent weak features, such as American Bugar, New York Central, and the Hill and Harriman stocks, were foremost in the early decline, but they, in common with most other stocks, subsequently recovered fully. Most of the limited business originated on the floor, and when the market settled to a rut the traders found it difficult even to scalp small fractions.

Today's bank statement bore out the optimistic views entertained vesterday regarding the expected showing and the more general uplift in prices at the close today was due to this belief. With a contraction in the deficit of over \$6,000,000, and a gain in cash of \$4,000,000, and a gain in cash of \$4,000,000, and a gain in cash of \$4,000,000, the position of the banks is slowly reached a level at which the retirement of the clearing bouse certificates will be arristed.

000,000, and a gain in cash of \$4,000, 000, the position of the banks is slowly reached a level at which the retirement of the clearing house certificates will be agitated.

The bond market during the week showed evidence at times of good inquiry for active speculative issues, as well as securities of a more stable character. The market in general conformed rather closely to the developments in the stock market.

The Financier today says:
Confrary to general expectations, the statement of the Associated Banks of the city of New York for the week ending December 14 proved to be favorable in every item. The striking feature was the gain of over four millions in cash, nearly all in the shape of gold. The known movements of money for the past six days indicated a loss to the interior of about six millions, which would offset the amount of imported gold received, and it was figured also that the banks had lost to the treasury on board account, but so far from this being the case, Government deposits in the New York hanks actually increased one and one-half millions during the week. Evidently the averages were at fault, and this may be shown in the next statement. Liquidation in loans continues, the decrease since December 1 having been \$11,387,700, and in two weeks about twenty-three millions of dellars. This shows that the tightening so regularly reported for the past five or six weeks is gradually relaxing. The deposit item for the week fell \$7,90,500, owing largely to loan liquidation, and the gain in cash already noted, coupled with the lessened reserve requirement of about two millions due to deposit decreases brought down the present detelency of reserve by \$6,102,175 to \$10,101,175. HOLIDAY BUYING IS BEGUN WITH VIGOR

Weather Interferes With Cash Christmas Staples Load Stands on Market Row and Meet Ready Sales.

> Stands on market row have been prepared for Christmas. The holiday goods have not all arrived, but fruits, nuts, candles, vegetables and game are arranged artistically and displayed to attract the attention of passersby. Pineapples are now on the market-of large apples are now on the market—of large size with deep yeliow-brown coloring. Fresh vegetables, atraight from Callfornia, can be found at various stands and Christmas meats are coming into the butcher shops. There has been a slight decrease in the price of ducks. The best teals may be had for 15 cents each, and other ducks are sold at 25 cents. Many of the stores have added Christmas trees to the stocks and the demand seems to be lively. All the staple Christmas fruits, such as oranges, figs, dates, bananas and apples, are in and the sale of these has been heavy. Great quantities of celery are being received and offered at 5 cents a bunch.
